PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science student with hands-on experience in Full-Stack Web Development, Machine Learning, and Generative AI. Built AI-powered web applications using React.js, Node.js, LLMs, REST APIs, and cloud technologies through academic and internship projects. Passionate about building scalable software and AI-driven solutions while growing as a software engineer in a collaborative environment.

SKILLS

Programming Languages: C++, JavaScript, Python

AI & Machine Learning: PyTorch, Scikit-learn, Generative AI, LLMs, RAG, AI Agents, XGBoost, NumPy, Pandas

Backend: Node.js, Express.js, FastAPI (Basic), REST APIs

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Databases: MongoDB, MySQL

Cloud & Tools: AWS Bedrock, Groq API, Git, GitHub, Postman

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

Credit Card Fraud Detection Using Teacher-Student Knowledge Distillation

Python, PyTorch, Scikit-learn, GATv2, SE-ResNet, XGBoost

- Built a hybrid fraud detection framework using GATv2, SE-ResNet, and Knowledge Distillation for efficient fraud classification.
- Implemented graph construction with k-NN and attention-based learning to capture transaction relationships.
- Evaluated the model on two public fraud datasets against XGBoost and MLP using PR-AUC, ROC-AUC, F1-Score, and MCC.

AI Learning Assistant — SaaS EdTech Platform | *React, Vite, Node.js, AWS Bedrock, DynamoDB, Lambda, CloudFront*

- Developed a scalable SaaS-based AI learning platform enabling real-time coding assistance and intelligent debugging.
- Integrated AWS Bedrock (Nova Micro) to deliver context-aware AI chat and automated code error analysis.
- Built a serverless backend architecture using AWS Lambda and API Gateway, ensuring auto-scaling and cost efficiency.
- Designed and deployed a full-stack cloud application with secure authentication, DynamoDB storage, and global delivery via CloudFront.

AI-Powered Workflow Automation System | *React, Node.js, Express.js, MongoDB Atlas, Tesseract OCR, Groq API (Llama)*

- Built a GenAI-powered platform to digitize handwritten manufacturing documents using OCR and LLM-based data extraction.
- Developed document processing workflows with validation, confidence scoring, error handling, and MongoDB storage.
- Created analytics dashboards and deployed the full-stack application on Vercel and Render with seamless API integration.

INTERNSHIP EXPERIENCE

Full Stack Developer Intern

Jul 2026 – Present

Infosys Springboard

Virtual / Remote

Project: AI-Powered Carbon Footprint & Sustainability Management Platform (EcoTrack)

- Developed and enhanced Angular-based authentication and routing modules.
- Built responsive user interfaces using Angular Material and modern CSS.
- Collaborated with a cross-functional team using Git/GitHub feature branches and contributed to Spring Boot and PostgreSQL-based backend integration.

Full Stack Development Intern

Jan 2026 – Mar 2026

DecodeLabs

Virtual / Remote

- Developed full-stack web applications using modern frontend and backend technologies in a collaborative remote environment.
- Built and integrated RESTful APIs, implemented database operations, and followed Git-based version control workflows.
- Collaborated with mentors and team members to deliver project features while following software development best practices.

EDUCATION

Govt. College of Engineering & Textile Technology, Berhampore

2022 – Present

B.Tech in Computer Science (*CGPA: 7.19*)

Santaldih Thermal Power High School (H.S)

2019 – 2021

Higher Secondary Education (*Percentage: 79%*)

ACHIEVEMENTS & CERTIFICATIONS

- Infosys Springboard (2026)** – Completed certifications in JavaScript, TypeScript, HTML5, CSS3, Angular through hands-on assessments [All Certificate]
- AI for Bharat Hackathon 2026 (AWS & Hack2Skill)** – Successfully developed and submitted a qualified GenAI project prototype; earned a verified participation certificate. [Certificate] +
- Full Stack Development Virtual Internship Certificate** – *DecodeLabs* [Certificate]
- Solved 150+ problems on LeetCode, strengthening Data Structures, Algorithms, and coding proficiency.
